EVO II ENTERPRISE BUNDLE

**Work will never
be the same again.**

Introducing the **EVO II Enterprise**, our toughest EVO II bundle yet!

Built to meet the demands of professionals in every industry, the EVO II Enterprise features an expanded selection of accessories that allow it to quickly adapt to different scenarios.

Vertical Applications

Public Safety

Assess threats from a safe distance or patrol an area during an investigation, freeing up manpower for other tasks.

Traffic Monitoring & Maintenance

Monitor traffic flow over a larger area and crack down on traffic violations to improve safety for everyone on the road.

Firefighting

Soar above the flames to identify hotspots, locate victims, and monitor changing conditions, reducing the risk for crew members on the ground.

Search and Rescue

Quickly locate missing persons by using automated mission modes to cover larger search areas in situations where every second counts.

Power Inspection

Zip between power lines to quickly spot structural damage or overheating electrical elements, saving time and labor costs.

Mapping

Create cost-effective 3D maps of an area using high-resolution images captured during steady, consistent flight.

A Newly Upgraded Airframe

The EVO II Enterprise also offers superior flight performance thanks to its **carbon fiber structural design**, which allows for more flight time, providing users a drone that works just as hard as they do.

42min

Loudspeaker

Enables more effective on-site communication through long-distance telephony and audio loops. One-way audio communication.

Spotlight

Beams a powerful, long-distance aerial light when searching or shooting at night. Adjustable angle.

Enterprise Accessories

Strobe

Indicate the location of the aircraft at night to avoid air traffic accidents. A necessary requirement for dusk and night flying.

RTK Module (Sold Separately)

Provides centimeter-accurate positioning data and reduces electromagnetic interference.
